

I recently used Bargain Boxes to move my family. As a real estate professional, I am exposed to many companies involved in the moving process. I have never seen the professionalism demonstrated by Bargain Boxes. They were very involved from packing, loading, storing, and moving my family. The workers were very loyal to Bargain Boxes and really cared about our furniture and belongings. They actually loaded several Plasma televisions and other high value items without incident.

John and Rebecca have a lot of experience in the moving business. And I'm glad they did. Our belongings were going to two locations – a storage facility and one of our rental properties. I threw John and Rebecca a major curveball. Bargain Boxes was delivering my items to the rental property when an incident occurred down the street from the property. I did not want my family to live in the rental property after this incident occurred. Bargain Boxes quickly took the truck to another location for me without hesitation. They went above and beyond my expectations.

They know their business, and care about their customers. I would recommend them to any and all of my clients. If you want a professional, incident and hassle-free move, there's only one choice – BARGAIN BOXES.

Respectfully,
