

Hi Rebecca,

I use your pamphlet as part of my listing presentation. Right from the get go when I go before a seller I bring your cards and brochure for packing, purging and I tell them how easy it is to use your services. My husband Bill was quite impressed with your company when he met you at the BNI meetings.

Both clients that have chosen your service lately (the Britt Family and Ken and Clara Rohach) stated that overall your home presentation of your services was informative and not a hard sell and your prices were very competitive. Combine that with the endorsement from Bill James of United Bank and Erick and Company made the decision a simple one for them.

You make my job easier, by having all the printed material ready for me to give to the client when I first meet them. It takes all their stress away before I even get the listing. I am giving them information they need right up front in hopes they will choose to list with me. It's working.

Sellers and Buyers like the fact we are assisting them with not just the selling and the buying, but all the other services they will need. (Movers, handyman services, lawn care Full service is the only way to go.

Take Care,
Peggy James
Listing Specialist For Erick and Company
